

DRIVES REGIONAL TALKS WORKSHOP

Spain - Basque Region Automotive Cluster 23/03/2022 - 15:00-16:30

The event is part of the EU project “Development and Research on Innovative Vocational Educational Skills” (DRIVES), the Blueprint for Sectoral Cooperation on Skills in the Automotive sector.

The purpose is to present the DRIVES project results to specific partnership regions and the legacy outcomes that will be rolled-out in a sustainable manner through the activities of the initiative under the Pact for Skills – the Automotive Skills Alliance.

AGENDA

TIME	TOPIC
15.00	DRIVES - an overview on the goals, key findings
15.10	Preparing the future – trends, job roles, new training courses (MOOC), apprenticeship guide
15.30	DRIVES Framework – EU-wide DB of training courses and micro-credentials
15.50	Contributions, questions, share of good practices, needs and ideas from local stakeholders - <i>The Basque Industry 4.0 strategy and the role of vocational education</i>
16.10	DRIVES sustainability – rolling-out results and leveraging solutions through the Automotive Alliance partnership
16.20	Closing remarks
